The Jackpot Payout System

The device:

The Jackpot Payout System provides a safe, easy and transparent payout option for every business offering cash pay-outs to its customers, such as casinos, betting shops, gaming rooms and amusement arcades.

The clear advantages of the Jackpot Payout System include:

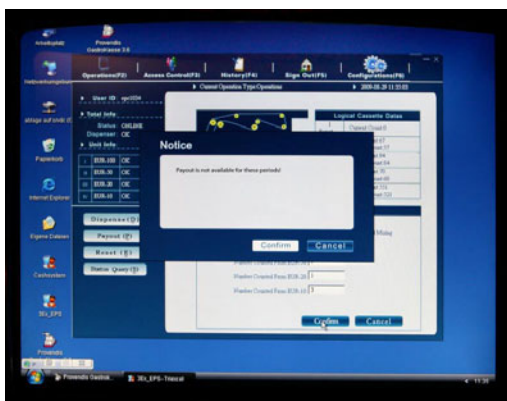

- Automated payout of jackpot prizes
- No more unauthorized access to cash
- Reduced risk of robberies
- Reduced insurance premiums

The front loaded Jackpot Payout System can be equipped with up to four different cash cassettes to customize payouts to your individual needs.

The software:

The pay-out software can be adapted for any currency and language.

A wide range of security options enables you to customize pay-out procedures to your individual needs.

Customization options include:

- Barcode, magnetic card and RFID card reader, coin dispenser, LAN connection and many more
- Maximum pay-out amount per client
- Maximum pay-out amount within specific time frame
- Different security authorization - levels for users
- Detailed logs of all payouts and user transactions

The software and the Jackpot Payout system can be easily Integrated into your existing network infrastructure.
